Assessment and evaluation processes happen in a continuous mode. A candidate's performance in a course shall be assessed for a maximum of 100 marks. The total marks for each course shall be based on Internal Assessments (for 20 marks) and semester end examinations (for 80 marks). The evaluation of the candidate shall be based on continuous assessment. However, for reporting purposes, a semester is divided into 04 discrete components identified as C1, C2, C3 and C4. The structure for evaluation is as follows:

- 13.1 The first component, C1, of assessment is for 10% of maximum marks. This will be based on session test of one hour in case of theory or two hours in case of practical. This assessment and score process should be completed after completing 30 – 35 percent of syllabus of the course/s and within 30 – 40 days of semester programme.
- 13.2 The second component, C2, of assessment is for 10% maximum marks. This will be based on session test of one hour in case of theory or two hours in case of practical. This assessment and score process should be completed after completing 65 – 70 percent of syllabus of the course/s and within 60 – 70 days of semester programme.
- 13.3 The third component, C3, of assessment is for 10% maximum marks. This will be based on session test of one hour in case of theory or two hours in case of practical. This assessment and score process should be completed after completing the entire syllabus of the course/s and within 90 – 100 days of semester programme.
- 13.4 For reporting and award of final grades, a candidate's performance in component C4 (for 80 marks) and his/her best performance in any two components out of three components [C1, C2 and C3] of internal assessment (for 20 marks) shall be considered.

Component	% of marks	Marks Allocated	Total Marks in a Course for final award of grade
C1	10	10	20
C2	10	10	
C3	10	10	
C4	80	80	80
			100

- 13.5 The total marks for the course on practical courses, wherever applicable, shall be based on Internal Assessment (for 10 marks) and Conduct of semester end Examinations (for 40 marks).
- 13.6 In case of a student who has failed to attend the C1 or C2 or C3 on a scheduled date, it shall be deemed that the student has dropped these components.
- 13.7 The Academic Dean in consultation with Heads of the Department shall notify the common time table for C1, C2 and C3 Assessments. The teacher concerned shall set and evaluate the course paper. The evaluated course papers during components C1, C2 and C3 are immediately provided to the candidates. The Head of the Department shall make arrangements to display the Statement of marks secured by the candidate in components C1, C2 and C3, immediately after each session and a copy of the same is to be submitted to the Controller of Examinations immediately.
- 13.8 The numerical grade (Grade Points) and credit points earned by the candidate in the course shall be as given below:

Range of Marks in Percentage	Grade Point (G)	Grade (G)	Credit Point (CP) = C x G
90 – 100	10	O (Outstanding)	C X 10
80 – <90	9	A+ (Excellent)	C X 9
70 – <80	8	A (Very Good)	C X 8
60 – <70	7	B+ (Good)	C X 7
50 – <60	6	B (Above Average)	C X 6
40 – <50	5	C (Average)	C X 5
<40	0	F (Fail)	C X 0
Absent	0	Ab (Absent)	C X 0

Where C is the credit value of the course.

13.9 Semester Grade Point Average (SGPA)

$$\text{Credit Points for the Paper (CP)} = \frac{\text{Number of Credits assigned for the paper}}{\text{Grade Points secured for that paper}} \times \text{Grade Points secured for that paper}$$

SGPA indicates the performance of a student in a given semester. SGPA is based on the total credit points earned by the student in all the courses and the total number of credits assigned to the courses / papers in the semester.

Note: SGPA is computed only if the candidate passes in all the course (gets a minimum P grade) of a semester.

$$\text{SGPA of a semester} = \frac{\text{Total Credit Points in the semester}}{\text{Total Credits in that semester}}$$

13.10 Cumulative Grade Point Average (CGPA):

CGPA refers to the cumulative grade point average weighed across all the semesters. CGPA is obtained by dividing the total number of credit points in all the semesters by the total number of credits in all the semesters. The final result at the end of all the semesters is declared in the form of CGPA.

Note: CGPA is calculated only when the candidate passes in all the courses of all the semesters.

$$\text{CGPA} = \frac{\sum \text{Total Credit Points in I to VI semesters}}{\sum \text{Total Credits in I to VI semester}}$$
